

NeuroRehabilitation

An Interdisciplinary Journal

Call for Papers – Special Issue

Caregiving after Neurotrauma and Neurological Disability

The interdisciplinary journal *NeuroRehabilitation* is planning a special issue “Caregiving after Neurotrauma and Neurological Disability” (guest editor: Paul B. Perrin, PhD). It will focus on carepartners and caregivers of individuals with diverse neurological conditions including traumatic brain injury, spinal cord injury, Parkinson’s disease, multiple sclerosis, dementia, amyotrophic lateral sclerosis, and others. The publication date will be late 2022.

All typical journal article processing charges will be waived for this special issue.

NeuroRehabilitation (ISSN 1053-8135) is a peer-reviewed journal, with an Impact Factor of 2.138 according to Journal Citation Reports (Clarivate, 2021) and the Editors-in-Chief are Nathan D. Zasler, MD, and Jeffrey S. Kreutzer, PhD. It is supported by an international Editorial Board consisting of a distinguished team of neurorehabilitation experts from major institutes around the world. More details about the journal can be found at: iospress.com/neurorehabilitation.

NEXT STEPS:

If you are interested to contribute to this issue, please email the guest editor Dr. Perrin before **December 1, 2021** with the following information: a tentative manuscript title; author list; and a several-sentence description of the study/manuscript.

Selected authors will receive a formal invitation link to submit their manuscript no later than **June 1, 2022**. Upon submission, manuscripts will immediately be sent out for peer review with editorial action decisions rendered as quickly as possible on a rolling basis. For information on formatting your manuscript, please see the author instructions [here](#).

Submission deadline: June 1, 2022
