

# Call for Papers

## *Advances in Communication and Swallowing*

### Special Issue: Technology and Aphasia

Technological advances are being harnessed to develop novel and exciting approaches to the assessment, rehabilitation, management, and self-management of aphasia. Technology provides platforms for peer-support and advocacy with, and for, people living with aphasia. We are pleased to invite submissions to this Special Issue on Technology and Aphasia.

*Advances in Communication and Swallowing* invite original research papers, review articles, letters to the editor, and spotlight articles related to any aspect of Technology and Aphasia. Submission is via the journal's online editorial management system. See author guidelines on the journal website for further submission specifications.

This Special Issue is guest edited by Dr Helen Kelly (University College Cork), Dr Áine Kearns (University of Limerick) and Shauna Bell (University College Cork).

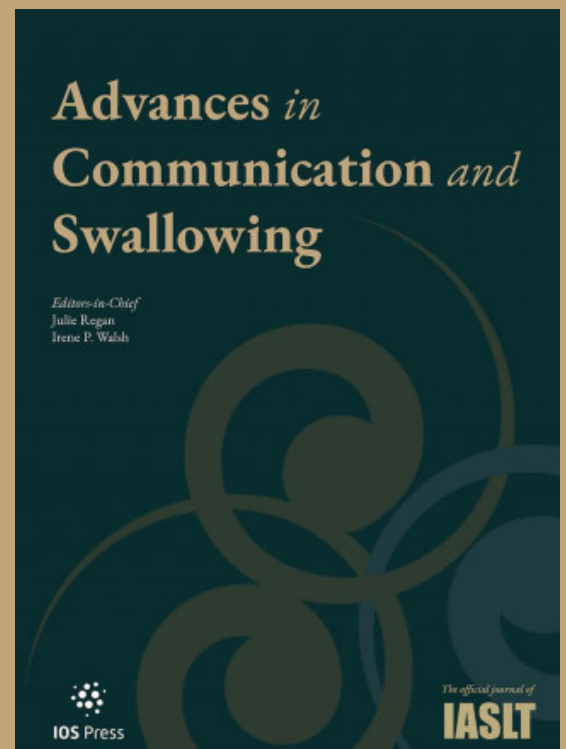

More details of the Special Issue will soon be available on the [journal website](#).

Contact [helen.kelly@ucc.ie](mailto:helen.kelly@ucc.ie) with any queries.

**Extended submission deadline: Tuesday 1st November, 2022**

*Advances in Communication and Swallowing* is a recently rebranded peer-reviewed academic journal affiliated to the Irish Association of Speech and Language Therapists (IASLT).
