Vilnius Gediminas Technical University (Lithuania) and Bialystok University of Technology (Poland) together with Lithuanian Society of Biomechanics and ESEM foundation invites you to the 13th International Conference

BIOMDLORE 2021

21-23 October 2021
Vilnius/Trakai, Lithuania

BIOMDLORE 2021 is a multidisciplinary international conference that provides the ideal opportunity to bring together professors, researchers and students of different disciplines for bridging the gap between engineering and medicine, discuss new issues, and discover the most recent researches in all fields of Biomedical Engineering in a multicultural atmosphere.

Keynote speakers, Workshop, Students competition and much more!

Scope of the conference:

- Orthopedics & Traumatology
- Biomedical Engineering
- Medical Diagnostics
- Biosignals
- Biomechanics
- Assistive Technologies
- Rehabilitation Engineering
- Mathematical Modeling
- Gait & Posture

Submission Deadline: 15 August 2021

Selected papers will be published in cooperation with “Technology & Health Care” journal (IOS Press)

Registration and paper submission: http://www.biomdlore.lt
