Dear Authors,

A special issue of Model Assisted Statistics and Applications (MASA) vol. 17, #2, 2022 will be devoted to the “International Conference on Data Analytics and Computational Techniques (ICDACT-2021)” organized by VIT Bhopal University from December 07 to 09, 2021.

Guest Editors for the special issue are:

1. Dr. Hemant Nashine, VIT Vellore, India
2. Dr. Reena Jain, VIT Bhopal University, India
3. Dr. Neha Choubey, VIT Bhopal University, India
4. Dr. Mayank Sharma, VIT Bhopal University, India

The authors are encouraged to submit their papers by August 15, 2021, as per regular guidelines at iospress.nl/model-assisted-statistics-and-applications, to the mail ID icdact2021@vitbhopal.ac.in. Paper submission will be accepted only from the registered participants of the conference. Registration can be done through the registration link https://forms.gle/Cxisjo8puSHPYxAj8. For more information about the conference, please visit https://vitbhopal.ac.in/event/icdact_dec_21/.

About the journal

Model Assisted Statistics and Applications is a peer reviewed international journal. Model Assisted Statistics means an improvement of inference and analysis by use of correlated information, or an underlying theoretical or design model. This might be the design, adjustment, estimation, or analytical phase of statistical project. This information may be survey generated or coming from an independent source. Original papers in the field of sampling theory, econometrics, timeseries, design of experiments, and multivariate analysis will be preferred. Papers of both applied and theoretical topics are acceptable.
